

Maize Growers Association

SOUTH WEST TRIAL SITE OPEN EVENING

Wednesday 21st July 2021

7.00-8.30pm

You are invited to take a look around our 2021 small plot trials in Shepton Mallet on Wednesday 21st July! Free to attend and open to all. A good opportunity to bring along your non-member friends, colleagues and neighbours to show them a bit more about what the MGA do. We will be talking you through the background of each trial, what we hope to find out, and any observations made so far.

Trials being run at the MGA site this year include:

- Starter Fertiliser
- Nitrogen Curve
- N inhibitors
- Mechanical Weeding
- Undersowing with two different machines
- Maize with Beans

The trial site this year is kindly sponsored by Wessex Water, CF Fertilisers, and Quality Liquid Feeds Ltd.

Wessex Water

YTL GROUP

Trial site is in Shepton Mallet, Somerset. Exact field location will be provided once you have booked your place.

Please contact the office to register your interest so that we can arrange parking
